STW intends to become a destination weekend for all levels of dancing and frolicking. Each weekend the host couple will add their twist to make it more than just a dance. All levels are welcome and an extra effort will be taken to help new graduates become more proficient.

The weekend is centered around a spacious hall with a wooden dance floor. Non dance activities will be centered around a host hospitality camp site where much of the socializing and other activities begin and camp cooking takes place.

While camping is the most ideal for the entire weekend we have identified and stayed in reasonably priced hotels in Painted Post. The campground is a pleasant 10 minute ride from the hotels.

The main dance is in the afternoon to accommodate day trippers.
